REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to show applicant's method of receiving a request from a user that includes the user's geographical location in the form of an IP address or longitude/latitude coordinates, then generating and transmitting an access code to the user whereby the access code is only broadcast in a defined region where the user's geographical location is purported. No obvious combination of references would have taught one of ordinary skill in the art to make and use applicant's apparatus as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton h Smith whose telephone number is 308-2488.

A handwritten signature in black ink, appearing to read "Creighton h Smith", with a stylized flourish at the end.
